

AIR FORCE SCHOOL JODHPUR

# MAGNUS

VOLUME 1

April-May

# MESSAGE

*Dear Students*

*The new academic session is not just another chapter in your school journey; it's a brand-new adventure waiting to unfold. As your mathematics teacher, I want you to think of this new session as the perfect time to build a bridge- a bridge from where you are now to where you want to be. Each new topic, each problem you solve, and each challenge you overcome will be a vital part of constructing this bridge.*

*This coming session, we're not just going to learn about numbers and equations. We're going to learn about how to think, how to persevere, and how to find joy in discovery. Mathematics is everywhere, and this year, we will explore its magic in a fun and exciting way.*

*For instance, we'll turn geometry into an architectural challenge, where you get to design your own magnificent buildings using shapes and angles. We'll use data to become super-detectives, analysing clues to solve real-world mysteries. We'll even use algebra to create our own secret codes, because who doesn't love a good puzzle? Maths is not just about getting the right answer, it's about asking the right questions and having a blast along the way!*

*Think about the goals you have for yourself- both in school and in life. Whether you dream of becoming an engineer, an artist, a scientist, or an entrepreneur, the skills you build this year-like problem-solving, logical thinking, and resilience-are the very foundation of your success.*

*So, as you step into the new session, remember to be brave, be curious, and most importantly, have fun! Your journey is unique, and I am excited to see the amazing bridges you will build. I believe in each and every one of you, and I am here to help you in every step of the way.*

*Best Regards*

*Deepika Jangid*

*Coordinator – TGT Mathematics*

## **From the Editor's Desk**

With excitement and pride, we present this special edition of our school magazine—a vibrant collage of creativity, achievements, and memories from the past year. Every issue embodies the spirit and passion of our school community, uniting students and teachers in a journey of learning, expression, and growth. This magazine is more than just a collection of articles and artwork; it is a platform where ideas blossom and young voices are heard. Through stories, poems, interviews, and illustrations, our contributors have captured the essence of school life—its challenges, successes, laughter, and dreams. We hope every reader, whether contributing or just turning these pages, finds inspiration to explore their own talents and embrace new opportunities. We express our deepest gratitude to all students, teachers, and staff whose hard work and enthusiasm brought this magazine to life. Special thanks to our school leadership for their constant support, and to our editorial board for their dedication and teamwork. As editors, we are privileged to be part of this creative venture. Let this edition serve as a reminder that together, we can make every day extraordinary.

# ***WITH EVERY BEAT OF THE STETHOSCOPE***

## ***A DOCTOR'S QUIET MAGIC***

*A Mother is a person who gives life, A Doctor is a person who saves life*

***Not all heroes wear capes; some wear masks and gloves, white coats with stethoscopes!***

*In the hum of fluorescent lights and the soft rustle of lab coats, walks a quiet hero – a doctor. One with a stethoscope slung around the neck, a heart full of purpose, and hands that have held both miracles and sorrows.*

*Doctors are the true artists of healing – blending precision with care and kindness. A doctor doesn't just treat diseases; they meet people at their most vulnerable moments – when a mother holds her child's feverish hand, or when a son whispers his final goodbye to his father in the ICU.*

*What makes a doctor truly special is not just the years of study, hard work, or sleepless nights, but the ability to remain human amid chaos. They smile even after a 20–24-hour shift. They care deeply, even when exhausted. They stay strong and bold, even when their own hearts break.*

*Behind every diagnosis, there is a story – and behind every story, a doctor who is willing to listen.*

*Doctors are the real unsung heroes of the world – the gentle voice in fear, the steady hands in emergencies. Respect them, for they are the heroes of our lives. Never take their work for granted. May we always see the heart behind the white coat.*

✦ *"The stethoscope is the only jewellery that can't be earned by money; it can only be earned by passion and hard work!"*

🍏 *"An apple a day keeps the doctor away."*

⚠ *Caution → Then stay away from me!*

### **The best teacher in my life**

A great teacher is irreplaceable. They made learning fun and always helped us whenever we need them. They help us to become the student we are today. They make our day special because of their positive attitude and their passion for teaching us new things every day. Even when the pressure of school seemed overwhelming, they make things better and easier for us. They cared about us and made sure that we had the knowledge. We all are lucky to have these teachers. As we all know every year in our school and everywhere hundreds of students come and go, so they can't remember them all, but we will never forget them. Teachers who love teaching, teach children to love learning.

### **Importance of Education**

Education is the most important part of our life. It improves our knowledge, enhances our skills, and develops our overall personality and attitude. It brings a great change in our life and makes it prosperous and meaningful. Education is the foundation of human development. It prepares us to face the world with confidence. It is rightly said that education is the third eye of human beings. It teaches us how to be polite, when to speak, and when to remain silent. Education is the most powerful weapon to change the world. It is a priceless property that can never be stolen. It always stays with us, wherever we go, and guides us even in the darkness. It is a ray of light and a hope for a better and certain future. While gaining education, you lose nothing but gain everything. It is the single door to prosperity and the key to success. Education brings happiness, discipline, and wisdom into our life. An educated person is always respected everywhere. Hence, we must all understand that education is not just a need but a true blessing of life.

## **इंतज़ार**

आओ, बातें करते हैं - क्या है इंतज़ार और कितना अद्भुत है यह शब्द। इंतज़ार सुनने में भले ही सरल और सामान्य लगे, पर इसका अर्थ इतना आसान नहीं है। यह एक ऐसा भाव है जो बचपन से लेकर बड़े होने तक हमारे जीवन का हिस्सा बना रहता है। हर किसी को किसी न किसी का इंतज़ार रहता है। सुबह होने का इंतज़ार, फिर किसी काम के पूरा होने का इंतज़ार, काम के बाद मेहनताना पाने का इंतज़ार, काम खत्म होने का इंतज़ार। ज़िन्दगी में कुछ हासिल करने पर भी उसमें और अच्छा होने का इंतज़ार। सच तो यह है कि इंतज़ार कभी खत्म नहीं होता, जीवन यूँ ही बीत जाता है - बस इंतज़ार करते-करते एक पिता अपने बेटे के सफल होने का इंतज़ार करता है। एक माँ बेटे की प्रगति का इंतज़ार करती है। माँ बेटे को स्कूल रवाना करने का इंतज़ार करती है। बच्चे अपनी कक्षा के परिणाम का इंतज़ार करते हैं

## कबीर दास जी के दोहे

दुख में सुमिरन सब करें,  
सुख में करे न कोय।  
जो सुख में सुमिरन करे,  
दुख काहे को होय।।

मल-मल धोए शरीर को,  
छूटे न मन का मैल।  
नहाए गंगा-गोमती,  
रहे बैल के बैल।।

बड़ा हुआ तो क्या हुआ,  
जैसे पेड़ खजूर।  
पंछी को छाया नहीं,  
फल लागे अति दूर।।

दीक्षित दवे III B

## मेरा पसंदीदा मौसम

सबका कोई न कोई पसंदीदा मौसम होता है और मेरा मनपसंदीदा मौसम गर्मी है। गर्मी में बहुत से रसीले फल मिलते हैं, जैसे आम, तरबूज, अंगूर, लीची आदि। मेरा जन्मदिन भी गर्मी में आता है। इस समय गर्मी की छुट्टियाँ होती हैं, इसलिए सब लोग आकर मेरा जन्मदिन धूमधाम से मनाते हैं। मेरी मम्मी और भाई का जन्मदिन भी इसी मौसम में आता है, और साथ ही मेरे मम्मी-पापा की शादी की सालगिरह भी गर्मियों में ही होती है।

इसके अलावा, इस लंबे गर्मी के मौसम में हम लोग कभी-कभी घूमने भी जाते हैं, जैसे कुआलालपुर, सिंगापुर, अपने गाँव आदि। गर्मियों का मौसम बाकी मौसमों से बिल्कुल अलग होता है, क्योंकि पूरे साल हम पढ़ाई और विद्यालय में व्यस्त रहते हैं, लेकिन गर्मियों की छुट्टियों में हमें पढ़ाई से थोड़ी राहत मिलती है और हम छुट्टियों का पूरा मज़ा ले पाते हैं। इसी कारण मुझे पूरे साल गर्मियों का बेसब्री से इंतज़ार रहता है।

## शिक्षकों को समर्पित कविता

हम सबके जीवन में,  
जो भी हमें कुछ अच्छा सिखाता है,  
वही तो *शिक्षक* कहलाता है।

बचपन में माँ-बाप का प्यार,  
आचार-विचार, व्यवहार और संस्कार,  
दुनिया की समझ सिखाता है,  
वही तो *शिक्षक* कहलाता है।

ज़िन्दगी के हर मोड़ पर,  
जो संकट में भी राह दिखाता है,  
वही तो *शिक्षक* कहलाता है।

अंधकार में भी जो सच्चे विचार,  
रोशनी जगाता हैं,  
वही तो *शिक्षक* कहलाता है।

सफलताओं के मौके पर,  
जो खुशियों से भावविभोर होकर  
टप-टप आँसू बहाता है,  
वही तो *शिक्षक* कहलाता है।

जिनका शिष्य आगे से आगे  
बढ़कर नाम कमाता है,  
उस शिक्षक का जीवन सफल हो जाता है,  
वही तो *शिक्षक* कहलाता है।

## कंप्यूटर

कंप्यूटर है मेरा नाम, करता हूँ मैं ढेरों काम,  
मुझमें है एक सी.डी. ड्राइव, सब कुछ दिखाती है लाइव।  
टी.वी. जैसा मेरा मॉनीटर, काम करता मैं खबरें हटाकर,  
साथ में रखूँ एक की-बोर्ड, झटपट कर लो सब कुछ लोड।  
कहीं की रहती चिट्ठा-पत्र, झटपट मैं तुम्हें दिखाऊँ,  
काम हो चाहे घरों का, झटपट मैं निपटाऊँ।  
सोचने में न देर लगाता, वृद्ध भी चाहे मुझसे ज्ञान,  
मेरे बिना ना चलता काम, कंप्यूटर है मेरा नाम।

आयान राणा तीसरी - अ

### Title: Fun Riddles

1. **Riddle:** What can you hold in your left hand but not in your right?  
**Answer:** Your right elbow
2. **Riddle:** You can break me easily without even touching me or seeing me. What am I?  
**Answer:** A promise
3. **Riddle:** What goes up but never comes down?  
**Answer:** Your age
4. **Riddle:** What's always found on the ground but never gets dirty?  
**Answer:** A shadow
5. **Riddle:** What belongs to you, but your friends use it more than you do?  
**Answer:** Your name
6. **Riddle:** The more you take, the more you leave behind. What are they?  
**Answer:** Footsteps

# **CONTRIBUTION OF TECHNOLOGY IN** **EDUCATION**

In the digital era in which we currently live, technology plays a vital role in every aspect of our life. With each passing day, new software and gadgets are being introduced in the tech market, which improve our lives in one way or another and make them more comfortable.

The mode of education has never been the same; it has continuously changed with time. In the beginning, there were no books or notebooks. Students used to learn directly from their teachers in the classroom itself. After the invention of pen and paper, the process of learning took a new shape. And today, we are blessed with advanced technology as the new mode of learning.

Technology has opened doors to various types of knowledge. Through online platforms, digital classrooms, e-books, and virtual tools, students can now learn anytime and anywhere.

This revolution in learning methods is rightly called the contribution of technology in education, as it has not only simplified learning but also made it more effective, interactive, and accessible for all.

# बेटी : एक सम्मान

आओ मिलकर दीप जलाएँ, बेटी को घर की शान बनाएँ।  
नन्हे पंखों से उड़ेगी पंछी, मीठी वाणी से खिला करेगी।  
खूब प्यार माँ-बाप को देगी, हर कदम पर साथ चलेगी।  
हर रिश्ता है उसी से बनता, आओ उसकी पहचान बनाएँ।

आओ मिलकर दीप जलाएँ, बेटी को घर की शान बनाएँ।  
उसका रूप नहीं कोई दाग में, फूल की तरह खिला करेगी।  
माँ से लेकर बहन तक, हर रूप में मिला करेगी।  
छोटी बच्ची हाथ पकड़ कर, बूढ़ी दादी कहानी बनाकर साथ  
चलेगी।

बहुत हुआ उन पर अत्याचार, हाथ बढ़ाकर उनकी ढाल  
बनाएँ।

आओ मिलकर दीप जलाएँ, बेटी को घर की शान बनाएँ।

हमने पूजा धरती को, अमर उसकी शान रहेगी।

आओ मिलकर वादा करें, बेटी हमेशा सम्मानित रहेगी।

ना मारेंगे, ना मारने देंगे, उनकी आँखों में हमारी जान रहेगी।

आज मैं कहती हूँ दुनिया से हर एक दिन 8 मई मनाएँ।

आओ मिलकर दीप जलाएँ, बेटी को घर की शान बनाएँ।

## हमारा हिन्दुस्तान

हमारा देश, हमारी भाषा  
हमारा नाम, हमारी आशा  
सदा सत्यमार्ग पर चलता  
हिन्दुस्तान यही सिखाता।

जाति-पाति का भेद  
मिटाता,

नेकी का यह पाठ पढ़ाता।

काले-गोरे का भेद नहीं,

सबको मिलकर रहना

सिखाता।

हमारा देश, हमारी भाषा

हमारा नाम, हमारी आशा।

— उन्नति शुक्ला
