

AIR FORCE SCHOOL JODHPUR

# MAGNUS

VOLUME 2

July - September

## MESSAGE

*Dear Students,*

*As we reflect on the first quarter of the academic year, I am thrilled to see the progress and enthusiasm displayed by our students. The energy and curiosity that filled our classrooms in April, May, and June set a strong foundation for the rest of the year. I appreciate the hard work and dedication shown by our students, and I am confident that this momentum will carry us through the second quarter.*

*As we dive into the second quarter, July, August, and September will be crucial months for academic growth and preparation. With the Half Yearly exams approaching, I urge all students to prepare diligently and make the most of this opportunity. These exams are a chance to demonstrate your understanding and reinforce your learning. Stay focused, create a study plan, and utilize the resources available to you.*

*In addition to exam preparation, the second quarter offers a range of exciting opportunities. Our school will be hosting various extracurricular activities, including sports events, cultural festivals, and inter-school competitions. These events will not only showcase your talents but also foster teamwork, creativity, and leadership skills. I encourage all students to participate and explore their interests.*

*As we navigate the second quarter, let's continue to prioritize academic excellence, personal growth, and community involvement. Let's support one another, ask questions, and seek help when needed. Our teachers and staff are here to guide you every step of the way.*

*To our students, I offer these words of encouragement: stay motivated, stay curious, and stay committed to your goals. Believe in yourself, and don't be afraid to take risks and try new things. Your hard work and perseverance will pay off.*

*As we move forward, I would like to remind everyone that our school values kindness, respect, and empathy. Let's continue to create a positive and inclusive environment where everyone feels welcomed and supported.*

*In conclusion, I am excited about the opportunities and challenges that lie ahead. Let's work together to make the second quarter a success. I look forward to seeing your growth, progress, and achievements.*

*Best wishes for a productive and fulfilling second quarter!*

*Mrs Priyanka Mandal*

*NIT Co-ordinator*

## Editorial Page

With lots of excitement and pride, we present this special edition of our school magazine! It's a colourful mix of creativity, achievements, and memories from the second quarter. Every page shows the spirit of our school — how students and teachers work, learn, and grow together.

This magazine is not just full of stories and drawings; it's a place where our ideas come alive and our voices are heard. Through poems, short stories, interviews, and art, we've tried to capture what school life really feels like — the fun, the challenges, the laughter, and the dreams we all share.

We hope that everyone who reads this magazine feels inspired to show their own talents and try new things.

We want to thank all the students, teachers, and staff who helped make this magazine possible. A big thank you to our school leaders for always supporting us, and to our editorial team for their hard work and teamwork.

As editors, we feel really lucky to be part of something so creative and special. We hope this edition reminds everyone that when we work together, we can make every single day truly amazing! ✨📖

## SAVE WATER

Save water, save water  
Water is our life

Water is used for everything  
Without water there is nothing  
We cannot live without it  
So, we should always  
Take care of it

Never waste a drop of water  
All living things need water  
Together we can save water  
So, we should always save water.

## Nature Is Everything

Nature is everywhere,  
Nature is everywhere you go,

Everything that lives and grows,  
is nature

Animal big and small

Nature is plant that grows so tall

Nature is beautiful in every way

Wonderful, exciting

And need our care

So listen, learn and do your part  
to keep nature beautiful forever.

Ansh Kumar Singh

Class - V A

## EMOTIONS

Emotions are an essential part of being human. They add colour to our lives — happiness brings smiles, sadness teaches empathy, and anger reminds us of our boundaries. Yet, one of the most important lessons in life is learning how to feel emotions without being controlled by them.

Often, when we are angry or hurt, we react in ways we later regret. In those moments, emotions cloud our thinking and make small problems seem much bigger. But if we pause, take a deep breath, and let our emotions settle before responding, we give ourselves a chance to act with understanding instead of impulse.

Emotions are not our enemies; they are our guides. They show us what matters most to us — what we love, fear, or value. The key is to *listen to them*, not *obey them blindly*. When the heart and mind work together, our choices become wiser and our relationships stronger.

# Cybersecurity

Cybersecurity is the practice of protecting digital devices, networks, and sensitive data from cyber threats such as hacking, malware, and phishing attacks. It involves the use of various technologies, processes, and policies to safeguard computers, networks, and information from potential attacks.

## Common Cyber Threats

- **Malware:** Malicious software designed to harm systems.
- **Ransomware:** A type of malware that locks data and demands payment for its release.
- **Phishing:** Attacks that use social engineering to trick users into revealing sensitive information.
- **DDoS (Distributed Denial-of-Service):** Overloading systems with traffic to disrupt normal operations.

## Importance of Cybersecurity

Cybersecurity is crucial because cyberattacks can disrupt businesses, communications, and even daily life. According to one estimate, cybercrime will cost the world around \$10.5 trillion per year by 2025. This highlights the urgent need for robust cybersecurity measures.

## Cybersecurity Best Practices

- **Use strong passwords:** Ensure that passwords are complex, unique, and regularly updated.
- **Keep software updated:** Install the latest security patches to fix vulnerabilities.
- **Use antivirus software:** Detect and remove threats before they cause harm.
- **Avoid suspicious links and attachments:** These are the most common ways malware spreads.

## The Light of Happiness 🌸

Happiness is a gentle breeze,  
That dances softly through the trees.  
It hides in smiles, in morning sun,  
In little things when day's begun.

It's not in gold or grand display,  
But simple joys that fill the day.  
A laugh, a hug, a friendly song—  
In hearts that share, it stays lifelong.

Barbie

Class - IX

## DREAMS

Hold fast to dreams  
For if dreams die  
Life is a broken-winged bird  
That cannot fly.

Hold fast to dreams  
For when dreams go  
Life is a barren field  
Frozen with snow.

Deekshit Dave

III B

## बचपन की खुशबू

एक छोटा सा गाँव था, जहाँ चार दोस्त रहते थे – रानी, मोहित, सोनू और पूजा। हर दिन स्कूल के बाद वे नदी किनारे जाकर खेलते थे। कभी मिट्टी के घर बनाते, कभी पत्थरों से नाव। उन्हें न मोबाइल की ज़रूरत थी, न खिलौनों की – बस एक-दूसरे का साथ ही उनकी दुनिया थी।

एक दिन बारिश हुई तो सारे बच्चे कीचड़ में फिसल-फिसल कर खेलने लगे। उनके कपड़े गंदे हो गए, मगर चेहरे पर चमकती मुस्कान थी। शाम को जब सब घर लौटे, तो माँ ने डाँटा, लेकिन उनकी आँखों में भी हल्की सी मुस्कान थी – क्योंकि वे जानती थीं, यह वही बचपन है जो लौटकर नहीं आता।

सालों बाद वे शहर में काम करने लगे और सब व्यस्त हो गए। एक दिन मोहित ने पुराने फोटो देखे – वही मिट्टी, वही हँसी, वही दोस्त। उसकी आँखें नम हो गईं। उसने बाकी तीनों को फोन किया और कहा, “चलो, फिर से वही नदी किनारे चलते हैं... बचपन को थोड़ी देर के लिए वापस बुला लाते हैं।”

चारों फिर मिले और कुछ पल के लिए ज़िंदगी फिर उतनी ही आसान, उतनी ही खूबसूरत लगने लगी।

### सीख:

बचपन कभी जाता नहीं, बस छिप जाता है। उसे ढूँढने के लिए हमें बस थोड़ी सादगी और सच्ची मुस्कान की ज़रूरत होती है। ❤️

## विज्ञान - मानव जीवन का आधार

विज्ञान वह शक्ति है जिसने मानव जीवन को सरल, सुविधाजनक और उन्नत बना दिया है। यह केवल प्रयोगशालाओं तक सीमित नहीं है, बल्कि हमारे दैनिक जीवन का अभिन्न अंग बन चुका है। सुबह उठने से लेकर रात को सोने तक, हर जगह विज्ञान का प्रभाव दिखाई देता है।

पहले के समय में लोग प्राकृतिक शक्तियों को चमत्कार मानते थे, परंतु विज्ञान ने इन रहस्यों को समझाकर उन्हें उपयोगी बना दिया। बिजली, मोबाइल, कंप्यूटर, इंटरनेट, वाहन, दवाइयाँ – ये सब विज्ञान की ही देन हैं। आज हम कुछ ही क्षणों में दुनिया के किसी कोने से बात कर सकते हैं और कुछ घंटों में एक देश से दूसरे देश जा सकते हैं।

विज्ञान से चिकित्सा के क्षेत्र में भी क्रांति आई है। पहले जो बीमारियाँ लाइलाज थीं, आज उनका उपचार संभव है। खेती में नई तकनीकों से उत्पादन बढ़ा है, और उद्योगों में मशीनों ने काम को तेज़ व आसान बना दिया है।

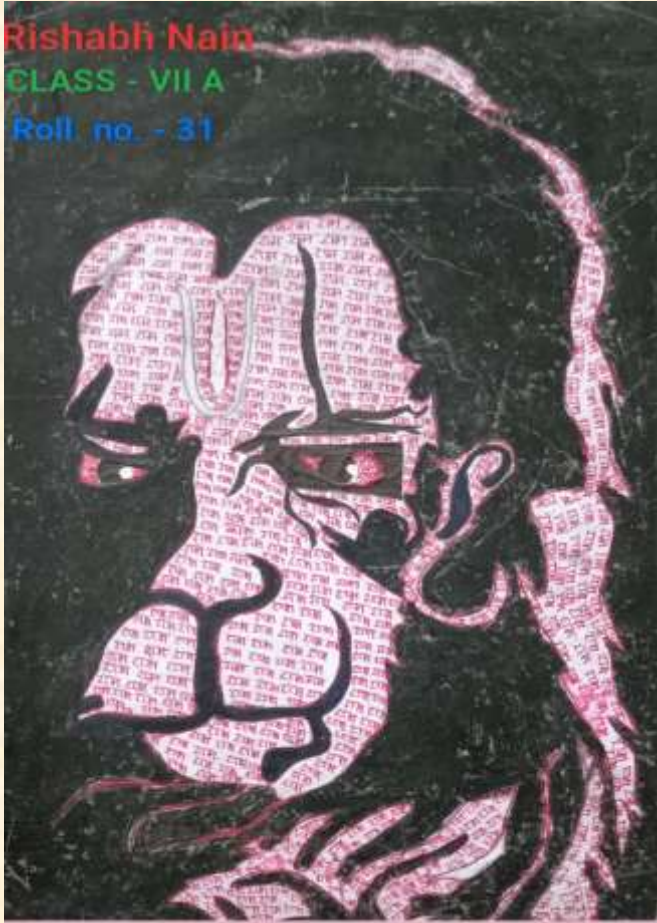

परंतु, जहाँ विज्ञान ने जीवन को सुखद बनाया है, वहीं इसका गलत उपयोग पर्यावरण प्रदूषण, परमाणु हथियार और नैतिक हानि जैसी समस्याएँ भी लेकर आया है। इसलिए ज़रूरी है कि हम विज्ञान का उपयोग *मानवता के कल्याण* के लिए करें, विनाश के लिए नहीं।

### निष्कर्ष:

विज्ञान मानव सभ्यता की आत्मा है। यह हमें सोचने, खोजने और आगे बढ़ने की प्रेरणा देता है। यदि इसका उपयोग सद्भावना और संतुलन के साथ किया जाए, तो यह पृथ्वी को एक बेहतर स्थान बना सकता है। 🌍 ✨

## लोकोक्ति-संग्रह

1. 'यो यदवपति बीजं हि लभते सोऽपि तत्फलम्'

जैसी करनी वैसी भरनी / जैसा बोओगे वैसा ही फल पाओगे।

2. 'हिताहितं वीक्ष्य निकाममाचरेत्'

जितनी चादर देखो उतने पैर फैलाओ।

3. 'अर्धो घटो घोषमुपैति नूनम्'

थोथा चना बाजे घना।

4. 'गतस्य शोचनं नास्ति'

अब पछताए होत क्या जब चिड़िया चुग गई खेत।

5. 'न हि सुखं दुखैःविना लभ्यते'

सेवा बिना मेवा नहीं।

6. 'बली बलं वेत्ति न वेत्ति निर्बलः'

हीरों की परख जौहरी ही कर सकता है।

7. 'अङ्गीकृतं सुकृतिनः परिपालयन्ति'

प्राण जाए पर वचन न जाए।

8. 'आमुखापाति कल्याणं कार्यसिद्धिः हि शंसति'

होनहार बिरवान के होत चिकने पात।

9. 'निःसारस्य पदार्थस्य प्रायेणाडम्बरो महान्'

ऊँची दुकान फीका पकवान।

10. 'इतौ भ्रष्टस्ततो नष्टः'

धोबी का कुत्ता घर का न घाट का।
